Docket No. GJE-7020  
Serial No. 10/509,781Remarks

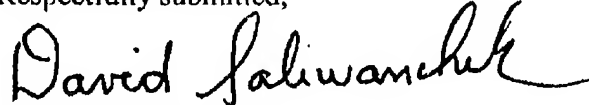

The drawings have been objected to under 37 CFR §1.83(a) for failing to show every aspect of the claimed invention. Therefore, a new set of Figures is attached herewith, which includes new Figure 3, to illustrate the claimed sensor and each of its recited features. Figures 1 and 2 have been amended merely to delete reference to the page numbering. Additionally, the specification has been amended to include a "Brief Description of the Figures" section, as well as, the reference numbers for each element of the invention shown on new Figure 3. Applicant asserts that no new matter has been added by the addition of Figure 3 or by these amendments to the specification.

These amendments have been made in an effort to lend greater clarity to the claimed subject matter and to expedite prosecution. The amendments should not be taken to indicate the applicants' agreement with, or acquiescence to, the objections of record. Favorable consideration of the claims now presented, in view of the remarks and amendments set forth herein, is earnestly solicited.

The Commissioner is hereby authorized to charge any fees under 37 CFR §§1.16 or 1.17 as required by this paper to Deposit Account No. 19-0065.

The applicants also invite the Examiner to call the undersigned if clarification is needed on any of this response, or if the Examiner believes a telephone interview would expedite the prosecution of the subject application to completion.

Respectfully submitted,
